

PARSA RAJABI

WEB DEVELOPER

ABOUT ME

Throughout my work experience, I've learned to approach projects with a strong sense of responsibility and to collaborate effectively with the team to deliver reliable results. Hands-on involvement in building and launching websites has helped me make more accurate decisions and balance both technical and business needs. I value teamwork, stay committed from start to finish, and put real emphasis on the quality of the final outcome.

EXPERIENCE

WORDPRESS DEVELOPER | DIDNEGAR CO.

Mar 2022 - Now

Didengar is a trading company in the field of camera and photography equipment that began its operations in 2006. This website has been built using the WooCommerce plugin and the WordPress content management system. From the start of our collaboration, through teamwork and a meticulous approach, we have managed to resolve the site's issues and develop a modern, secure, fast, and SEO-friendly website.

AI ENGINEER | DIDNEGAR CO.

Jan 2025 - Now

In today's world, creating distinctive features for online stores is crucial. Accordingly, at Didengar, we integrated our processes with artificial intelligence and also designed a chatbot called "Negarbot"

WEBMASTER | PAR30SHOP CO.

Feb 2024 - Now

Parsi Shop is an online platform centered on introducing cutting-edge technology. Founded in 1403 (Persian calendar), I am actively working on its development and growth.

FREELANCER

Feb 2021 - Now

Freelance work exposed me to diverse, real-world projects that strengthened my adaptability, sharpened my technical judgment, and made me an effective, reliable team contributor.
